Dear Parent/Guardian,

We pray and trust that you and your family are keeping safe. At the moment the health and safety of our students, parents/guardians and staff is our top most priority.

The Playstreet Kindergarten team has been working on an online learning module so as to ensure our students do not lag behind on curriculum/syllabus coverage. The online component will be based on four pillars.

1. **Zoom** – Which will allow for online interaction both for the teachers - students and students - students.
2. **The Playstreet Smart School** – Where class notes and homework will be downloaded and grading/ feedback given.
3. **Google Classroom** – Where videos will be available for students who might have missed the zoom class or want to review/revise a certain topic. It will also facilitate online quizzes, assignments and exams.
4. **Other online resources** – Through our website we shall provide online resources such as books and shall partner with other online learning apps to ensure our students have all the required resources to enable smooth and effective online learning.

As we pray for a rapid solution to the Covid-19 epidemic, we pray that our students and parents will continue to adhere to government requirements that we all wear masks while in public places, regularly wash our hands with soap and running water and stick to social distancing guidelines.

We are trusting God to keep us all safe and you are always in our prayers. Kindly keep us all in your prayers too.

We are excited to start this journey with you and your child and take this opportunity to welcome you to The Playstreet kindergarten/school Virtual School. We seek your help to make it a success through your input and feedback.

Yours,

**Mrs. Lucy Kariuki**  
**Director.**
